Consistent, current, and complete documentation in the medical record is an essential component of quality patient care. There are specific elements that reflect a set of commonly accepted standards for medical record documentation. Providers will be required to meet minimum documentation standards to continue participation in the SHPS network. This includes electronic medical record (EMR) documentation. SHPS conducts periodic audits and ongoing oversight of documentation to ensure compliance with such standards. Medical record documentation audit activities are often directed to the PCP; however, audits of other practitioners and ancillary providers will be conducted as directed by the SHPS Compliance Department as a result of claims trends, suspected fraud, waste, or abuse, documentation issues, and/or as directed by any of our Scripps Health Plan Services Committees. Please refer to the "Medical Record Documentation Standards - Tip Sheet" available via the SHP and SHPS websites under SHP Forms, Credentialing & Dispute Resolution or SHPS Provider Resources.

STANDARDS OF CONDUCT – DOING THE RIGHT THING

Scripps Health Standards of Conduct serves as a primary education and communication tool that demonstrate how Scripps' mission and values influence patient care, conduct daily business, interact with each other, and make everyday decisions. It is everyone's responsibility for upholding these guiding principles and for providing care and conducting business in a manner consistent with these standards. Scripps Health has relevant and specific compliance guidance for physicians, advanced practice clinicians, vendors, and third parties.

NON-DISCRIMINTATION IN HEALTH CARE

Provider offices, facilities, equipment, personnel, and administrative services must be at a level and quality necessary to perform duties and responsibilities to meet all applicable legal requirements, including the accessibility requirements of the Americans with Disabilities Act (ADA). Providers are expected to disclose complaints of discrimination to SHPS.
